AQUACULTURE MANAGEMENT ACT 2003
(Section 41)

AQUACULTURE MANAGEMENT REGULATIONS 2008

IN EXERCISE of the powers conferred by section 41 of the Aquaculture Management Act 2003, the Minister for Fisheries with consent of Cabinet, makes the following Regulations:

1. Short title

These Regulations may be cited as the Aquaculture Management Regulations 2008.

2. Interpretation

In these Regulations unless the context requires otherwise –

“aquaculture equipment” means any fixtures, furniture or equipment of any nature that is not part of the natural environment that is used by the holder of an aquaculture development licence for the purpose of aquaculture;

“guarantee” means a written note or memorandum signed by the authorised agent of a financial institution in the Kingdom;

“extensive operation” means that form of aquaculture that requires no form of equipment or furniture in the aquaculture premises;

“high-water mark” means the shoreline location that corresponds to the mean high water tide level;

“intensive operation” means that form of aquaculture that requires the use of equipment or furniture of any sort in the aquaculture premises;

“internal waters” means any waters in the Kingdom between the high-water mark and the outer edge of any adjacent reef. Where appropriate, the outer edges of such adjacent reefs shall be joined with straight baselines for the purposes of determining the internal waters;

“inter-tidal waters” means the water column of the inter-tidal zones;

“inter-tidal zone” means the land exposed when the tides rise and fall;

“licence” means a licence issued by the Minister that entitles the holder of the licence to occupy an area in the inter-tidal or sub-tidal area (both seabed and water above the seabed) for the purpose of aquaculture defined in an associated aquaculture development licence;

“offshore waters” means any waters in the Kingdom below the high-water mark that are not internal waters;

“open water releasing” is the practice of releasing aquaculture product in inter-tidal, internal or offshore waters for subsequent harvest through conventional fishing practices;

“Plan” means the aquaculture management and development plan published in the Gazette under section 4 of the Act;

“sub-tidal waters” means the shallow water zone.

3. Certification

Aquaculture products shall be certified as being aquaculture products by an aquaculture officer. An aquaculture officer shall base the certification upon reasonable evidence that the product in question is an aquaculture product, for example, through natural or physical tagging, audit or examination of production records.

4. Application for aquaculture development licence

(1) An application for an aquaculture development licence shall be-

- (a) made in Form 1 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

(2) The Minister may-

- (a) issue an aquaculture development licence in Form 2 of Schedule 1 for the appropriate Category of aquaculture; and
- (b) upon payment of the relevant fee for that Category specified in Schedule 2.

5. Renewal of aquaculture development licences

An application to renew an aquaculture development licence shall be-

- (a) made in Form 3 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

6. Production returns

All aquaculture development licence holders shall provide bi-monthly returns in Form 4 of Schedule 1.

Made at Nuku'alofa this 16 day of September 2008.
