29. Green snail
30. Marine aquarium fish
31. Application for a licence to fish for marine aquarium fish
32. Licence to fish for marine aquarium fish

33. Application to renew a licence to fish for marine aquarium fish
34. Export for home consumption
35. Trained employees
36. Marine Aquarium fish log sheets
37. Resource Rent on marine aquarium fish

PART 6 – FISH FENCES

38. Fish fences
39. Application for a licence to erect and use a fish fence
40. Bond
41. Licence to erect and use a fish fence
42. Prohibitions
43. Application to renew a licence to erect and use a fish fence

PART 7 – FISH AGGREGATION DEVICES

44. Fish aggregation devices
45. Application to license a fish aggregation device
46. Licence for a fish aggregation device
47. Application to renew a licence for a aggregation device
48. Designated fish aggregation device
49. Markings and equipment of a fish aggregation device
50. Use of a fish aggregation device
51. Compliance with other conservation and management measures
52. Disposal of unauthorised fish aggregation devices
53. Fish aggregation device Log sheet

PART 8 – MISCELLANEOUS

54. Information to be true, complete and correct
55. Resource rent on fishery
56. Use and expenditure of the marine aquarium fish resource rent

Schedules

FISHERIES MANAGEMENT ACT 2002
(Section 101)

FISHERIES MANAGEMENT (CONSERVATION) REGULATIONS 2008

IN EXERCISE of the powers contained in section 101 of the Fisheries Management Act 2002, the Minister makes the following Regulations:

PART 1 – PRELIMINARY

1. Citation

These Regulations may be cited as the Fisheries Management (Conservation) Regulations 2008.

2. Interpretation

In these regulations –

- (a) the terms and phrases defined in the Fisheries Management Act 2002 shall be given the same meaning; and
- (b) unless the context requires otherwise –

“Act” means the Fisheries Management Act 2002; and

“export” means to take or cause to be taken out of the Kingdom for commercial or potentially commercial purposes, and includes providing commercial samples but does not include the export for the purpose of home consumption;

“home consumption” means the export of fish in quantities less than 20 kilograms in weight for the purpose of domestic consumption, with the exemption of giant clam where the quantity exported is limited to 5 kilograms;

“mesh size” means the measurement between the inner knots of the net when fully stretched, and shall be based on an average of 20 consecutive meshes;

“net” means any net used for entrapping fish.

PART 2 – CONSERVATION AND MANAGEMENT

3. Determination rights to participate

The Minister shall, in determining the allocation of rights to participate in a fishery, consider –

- (a) the fishery plan made in respect of that fishery;
- (b) the extent to which there has been compliance with the laws of the Kingdom and any relevant access agreement or fisheries management agreement;
- (c) the extent to which there has been cooperation with the Kingdom and substantial contributions to the conservation, management and development of fisheries and fishery research;
- (d) whether there has been an undertaking to invest in the fisheries sector in such a manner as to bring significant benefit to the Kingdom;

- (e) whether there has been cooperation with the Kingdom in enforcement of the provisions of the Act and its regulations, including flag state enforcement and provision of information required for the conservation and management of fisheries resources; and
- (f) whether there has been compliance, while in the national waters of another State in the region, with the terms of any fisheries management agreement to which the Kingdom is a party and which is implemented by such other State.

4. Fishery plan

A fishery plan shall –

- (a) identify the characteristics of the fishery;
- (b) specify the management and development strategies to be adopted for the fishery, and the limitations, if any, to be applied to the issue of licences, permits or other authorisations or allocation of participatory rights in respect of the fishery;
- (c) identify any possible adverse environmental effects of the operation of fishing activities in the fishery, together with proposals for the management of those effects;
- (d) specify the conservation and management measures to be applied and enforced to protect the fishery resource from over-exploitation and the authority, persons or groups of persons or coastal community that may be responsible for management, monitoring, control and surveillance;
- (e) specify the information and other data required to be given or reported for effective management and development of the fishery;
- (f) specify the research necessary to enhance conservation and management of the fishery; and
- (g) take into account any relevant traditional fishing methods or principles.

PART 3 – SPECIAL MANAGEMENT AREAS

5. Boundary of a special management area

- (1) The boundary of any special management area shall –
 - (a) be measured seaward from the high-water mark of a coastal community; and
 - (b) not exceed a distance of 2500 metres from the high-water mark or a depth of 50 metres.
- (2) Where the application of sub-regulation (1) means that the boundaries of any two coastal communities will overlap, the boundary shall be the equidistance between such communities.
- (3) The Minister may, in consultation with that community's Coastal Community Management Committee and the Fisheries Management Advisory Committee, alter the application of the boundary under sub-regulation (1) or sub-regulation (2) for the purposes of ensuring habitat, conservation, management, sustainable utilisation and development of fisheries resources.

PART 4 – RESTRICTED FISHING METHODS

6. Diving equipment

- (1) In this regulation “underwater breathing apparatus” means any underwater apparatus that utilises compressed gas or surface supplied air including scuba gear, hookah gear, compressors and other mechanical and robotic means in collecting, catching and diving for fish.
- (2) No person shall use any underwater breathing apparatus for the purpose of fishing except with the written authorisation of the Secretary and in accordance with such conditions as he may specify.

7. Nets

With the exemption of cast nets, no person shall use a net for fishing except with a licence issued by the Secretary and in accordance with such conditions as he may specify.

8. Application to license a net for fishing

An application to licence a net for fishing shall be –

- (a) made in Form 1 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

9. Licence to use a net for fishing

A licence to use a net for fishing shall be issued –

- (a) in Form 2 of Schedule 1; and
- (b) upon payment of the fee specified in Schedule 2.

10. Mesh Sizes

- (1) The mesh size of a cast net used for fishing shall not be less than 12 millimetres and the diameter of such a net shall not exceed 4 metres.
- (2) The mesh size of any trammel net, dragnet or beach seine net, gill net, drive-in net, ring net, lift net or purse seine net used for fishing shall not be less than 50 millimetres.
- (3) No person shall sell or purchase a net with a mesh size that is inconsistent with this regulation.

11. Length of the Nets

- (1) The length of a drive-in net including ropes or scare lines attached to the drive-in net used for fishing shall not be greater than 300 metres.
- (2) The length of any trammel net, dragnet or beach-seine net, ring net, lift net or purse seine net used for fishing shall not be greater than 300 metres.

12. Prohibitions in net fishing

No person shall –

- (a) use any net, except a cast net, to fish within 200 metres of a fish fence; or
- (b) use more than one net at any one time.

13. Log sheet for net fishing

A holder of a licence to use net for fishing shall –

- (a) complete the Net Fishing Log sheet, in Form 1 of Schedule 13, for every day of fishing, including -

- (i) licence holder's name;
 - (ii) date of fishing;
 - (iii) number of fishermen;
 - (iv) scientific or common name of each species fished;
 - (v) total weight of catch by species;
 - (vi) the location of the fishing area; and
 - (vii) total fishing hours; and
- (b) forward all completed Net Fishing Log sheet to the Secretary in their original and unaltered form no later than 24 hours after the completion of the day to which the log sheet relates.

14. Application to renew a licence to use a net for fishing

An application to renew a licence to use a net for fishing shall be –

- (a) made in Form 3 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

15. Discarded fishing gear

- (1) No person shall deliberately dump or discard any fishing gear except in an emergency or circumstances involving the safety of a vessel or its crew.
- (2) The vessel operator shall inform the Ministry of –
 - (a) any fishing gear that is either discarded in the manner provided in sub-regulation (1) or accidentally lost; and
 - (b) reasonable efforts made to recover such gear.

PART 5 – SPECIES CONSERVATION AND MANAGEMENT

16. Marine mammals

- (1) In this regulation “marine mammal” means any member, at any stage of its life cycle, of any species of the class Mammalia including whales and dolphins.
- (2) No person shall fish for, harm or interfere with any marine mammal in the fisheries waters.
- (3) No person shall have in his possession a marine mammal, live or dead or part of a marine mammal or a product derived from a marine mammal, where the marine mammal has been killed or taken in contravention of the provisions of this regulation.
- (4) Where a person injures or kills a marine mammal accidentally, or finds a marine mammal that is injured or killed, he has a duty to record and report this finding to the Secretary.
- (5) A person who provides a report under sub-regulation (4) shall furnish such information as is required by the Secretary.
- (6) Notwithstanding sub-regulations (2) and (3), the Secretary may give written authorisation to fish for marine mammals in a limited manner and only in exceptional circumstances involving

international scientific research which is intended to result in significant benefit for marine mammals, and will not cause harm or injury to the species.

- (7) Any person who has a licence to carry out the activity of whale watching shall –
 - (a) ensure that he or any person involved shall not fish for, harm or interfere with any marine mammal in the fisheries waters; and
 - (b) comply with any other laws relating to whale watching.

17. Spiny lobster

- (1) In this regulation “lobster” means a crustacean of the genus *Panulirus*.
- (2) No person shall fish, possess, sell or purchase any lobster –
 - (a) carrying eggs;
 - (b) the carapace of which is less than 7.5 centimetres when measured along the midline from immediately behind the rostral horns to the rear edge as illustrated in Schedule 3; or
 - (c) any lobster the tail of which is less than 4.5 centimetres in width when measured between the lateral notches of the first tail segment from the ventral side of the tail, as illustrated in Schedule 3
- (3) Where the rostral horns of the lobster have been damaged, measurement of the carapace length of such lobster for the purposes of sub-regulation (2)(b) shall be undertaken on whatever part of the carapace is remaining.
- (4) No person shall –
 - (a) use destructive techniques to dig lobsters from their burrows; or
 - (b) remove the eggs from a lobster or take, have in his possession, sell or purchase a lobster from which the eggs have been removed.

18. Slipper lobster

- (1) In this regulation “slipper lobster” means a crustacean of the genus *Parribacus*.
- (2) No person shall fish, possess, sell or purchase any slipper lobster –
 - (a) carrying eggs; or
 - (b) which is less than 15 centimetres in length when laid flat and measured from the front edge of the carapace to the rear edge of the telson as illustrated in Schedule 4.
- (3) No person shall –
 - (a) use destructive techniques to dig slipper lobsters from their burrows;
 - (b) remove the eggs from a slipper lobster; or
 - (c) take, possess, sell or purchase a slipper lobster from which the eggs have been removed.

19. Triton shell

- (1) In this regulation “triton shell” means any mollusc of the species *Charonia tritonis*.

- (2) No person shall fish for, harm, have in his possession, sell or purchase any triton shell which is less than 20 centimetres in length when measured along the outside of the shell from one end to the other as illustrated in Schedule 5.

20. Giant clam

- (1) In this regulation “giant clam” means any mollusc of the family *Tridacnidae*.
- (2) No person shall –
 - (a) fish for, harm, have in his possession, sell or purchase any giant clam the shell length of which is less than the length specified for the particular species indicated in Schedule 6;
 - (b) remove the mantle or adductor muscle from any giant clam the shell length of which is less than the length specified for the particular species indicated in Schedule 6;
 - (c) sell clam meat out of the shell, unless it has been certified by an authorised officer that it came from a clam of legal size;
- (3) Notwithstanding any other provisions in the Act, no person shall export any clam meat for commercial purposes or clam meat quantities of more than 5 kilograms in weight for the purpose of private consumption.

21. Winged pearl oyster

- (1) In this regulation “winged pearl oyster” means any mollusc of the species *Pteria penquinn*.
- (2) No person shall fish for, harm, have in his possession, sell or purchase any winged pearl oyster which is less than 20 centimetres in ambo-ventral length as illustrated in Schedule 7.

22. Black lip oyster

- (1) In this regulation “black lip oyster” means any mollusc of the species *Pinctada margaritifera*.
- (2) No person shall fish for, harm, have in his possession, sell or purchase any black lip oyster which is less than 11.5 centimetres in ambo-ventral length as illustrated in Schedule 8.

23. Inter-island Transfer of Pearl Oyster

- (1) In this regulation “pearl oyster” means “winged pearl oyster” and “black lip oyster”.
- (2) No person shall remove or take any pearl oyster for the purposes of transferring it between any of the island groups of Tongatapu, Vava'u, Ha'apai, 'Eua, Niuatoputapu and Niuafo'ou except with the written authorisation of the Secretary and in accordance with such conditions as he may specify.

24. Turtles

No person shall –

- (a) disturb, take, have in his possession, sell or purchase any turtle eggs;
- (b) interfere with, destroy, or disturb in any way any turtle nest;
- (c) use a spear or spear gun for the purpose of capturing, killing or taking any species of turtle;
- (d) at any time fish, capture or destroy any male turtle the shell length of which is less than 45 centimetres as illustrated in Schedule 9;

- (e) fish, capture or destroy any turtle during the closed season specified in Schedule 12; or
- (f) fish, capture or destroy any Leatherback turtle of the species *Dermochelys coriacea* as specified in Schedule 12;
- (g) possess or sell turtle meat out of the shell, unless it has been certified by an authorised officer that it came from a turtle of legal size;
- (h) at any time, fish, harm, capture or destroy any female turtle as specified in Schedule 12.

25. Mullet

- (1) In this regulation “mullet” means any species of fish of the family *Mugilidae*.
- (2) No person shall fish, possess, sell or purchase any mullet during the closed season specified in Schedule 12.

26. Beche-de-mer and Sea cucumber

- (1) In this regulation beche-de-mer means any dried form of sea cucumber of the class *holothuroidea*.
- (2) No person shall fish for sea cucumber of the class *holothuroidea* for the purpose of processing beche-de-mer without a licence.
- (3) No person shall fish, take, possess, sell or purchase any beche-de-mer or sea cucumber, the length of which is less than the length specified for the particular species specified in Schedule 12A.
- (4) No person shall fish for or possess sea cucumber during the closed season for the particular species specified in Schedule 12, except fish for curry fish, snake fish and chalkfish to be consumed raw.

27. Octopus

- (1) In this regulation “octopus” means any species of the family *Octopus cyaneus*, *O. macropus*, and *O. membranaceus*.
- (2) No person shall use destructive techniques to dig octopus from their burrows.

28. Trochus

- (1) In this regulation "trochus" means any mollusc of the family *Trochus niloticus*.
- (2) Subject to sub-regulation (3), no person shall fish for, harm, have in his possession, sell or purchase any trochus which is less than 8 centimetres and more than 12 centimetres in diameter as illustrated in Schedule 10.
- (3) No person shall fish for, harm, have in his possession, sell or purchase any trochus except with the written authorisation of the Secretary.

29. Green snail

- (1) In this regulation "green snail" means any mollusc of the family *Turbo marmolatus*.
- (2) Subject to sub-regulation (3), no person shall fish for, harm, have in his possession, sell or purchase any green snail which is less than 16 centimetres in ambo-ventral length as illustrated in

Schedule 11.

- (3) No person shall fish for, harm, have in his possession, sell or purchase any green snail except with the written authorisation of the Secretary.

30. Marine aquarium fish

- (1) In this regulation “marine aquarium fish” refers to hard coral, soft coral, small invertebrates and aquarium fish.
- (2) No person shall –
 - (a) engage in fishing for marine aquarium fish without a licence issued by the Secretary;
 - (b) engage in fishing for marine aquarium fish in a manner that is inconsistent with the objectives of the relevant management and development plan;
 - (c) use destructive techniques, including the use of hammers and metal bars, to harvest marine aquarium fish; or
 - (d) harvest aquarium live rock.
- (3) For the purposes of this regulation, “live rock” means an assemblage of living organisms attached to a hard substrate (including dead coral rock or rock usually calcareous in nature”).

31. Application for a licence to fish for marine aquarium fish

An application for a licence to fish for marine aquarium fish shall be –

- (a) made in Form 4 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

32. Licence to fish for marine aquarium fish

A licence to fish for marine aquarium fish shall be issued –

- (a) in Form 5 of Schedule 1; and
- (b) upon payment of the fee specified in Schedule 2.

33. Application to renew a licence to fish for marine aquarium fish

An application to renew a licence to fish for marine aquarium fish shall be -

- (a) made in Form 6 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

34. Home Consumption fish permit

Any person may export –

- (a) giant clam not exceeding 5 kilograms in quantity;
- (b) any other fish not exceeding 20 kilograms in quantity,

upon issuance of a home consumption fish permit by the Secretary in the form prescribed in Schedule 11A and payment of the fee specified in Schedule 2.

35. Trained employees

A holder of a licence to fish for marine aquarium fish shall ensure that all employees operating under that licence are sufficiently trained in and operate using best practice for harvesting to minimize mortalities post harvest and to minimize damage to non-harvested reef life.

36. Marine Aquarium fish log sheets

A holder of a licence to fish for marine aquarium fish shall –

- (a) complete the Marine Aquarium Fishing Log sheet, in Form 2 of Schedule 13, for every day of fishing of aquarium fish, including -
 - (i) licence holder's name;
 - (ii) date of fishing;
 - (iii) scientific or common name of each species fished;
 - (iv) number of specimens (pieces collected) of each species fished;
 - (v) accurate description of location of the site from where specimens were collected;
 - (vi) collection method including dive method and equipment used; and
 - (v) total collection time for those specimens; and
- (b) forward the completed Marine Aquarium Fishing Log sheets to the Secretary in their original and unaltered form no later than 24 hours after the completion of the day to which the log sheet relates.

37. Resource Rent on marine aquarium fish

- (1) The Minister may, by Notice published in a newspaper widely circulated in the Kingdom, raise a resource rent as he deems necessary on any marine aquarium fish processed or exported by any person or establishment that has been licensed to process or export marine aquarium fish.
- (2) The resource rent referred to in sub-regulation (1), shall be based upon such information as determined by the Minister.

PART 6 – FISH FENCES

38. Fish fences

- (1) In this Part “fish fence” means any fence, stake whether fixed or moveable construction used for entrapping fish.
- (2) No person shall erect or use a fish fence except with a licence issued by the Secretary.

39. Application for a licence to erect and use a fish fence

An application for a licence to erect and use a fish fence shall be –

- (a) made in Form 7 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

40. Bond

- (1) In addition to the fee for an application for a licence to erect and use a fish fence, the applicant shall pay a bond as specified in Schedule 2 to the Ministry.
- (2) The bond shall be used to meet the costs of the Ministry in the event of abandonment of a fish fence or neglect by the licence holder to remove the fish fence upon the expiry of his licence.
- (3) Where a licence holder does not wish to renew his licence and the fish fence has not been abandoned the Ministry shall return the bond under sub-regulation (1).

41. Licence to erect and use a fish fence

- (1) A licence to use a fish fence shall be issued –
 - (a) in Form 8 of Schedule 1; and
 - (b) upon payment of the fee specified in Schedule 2.
- (2) Every licence holder shall remove his fish fence by 30 June of each year.

42. Prohibitions

- (1) In this regulation, the distance from one fish fence to another will be measured from the mid point of the leading fence of the fish fence.
- (2) No person shall erect or use a fish fence the –
 - (a) mesh of which is less than 3.8 centimeters;
 - (b) width of which at its widest point exceeds 50 metres; or
 - (c) total installed length of which exceeds 140 metres.
- (3) There shall not be more than three fish traps.
- (4) The leading fish fence shall be 15 metres away from the end edge of the high-water mark to enable free passage of small vessels and local fishers.
- (5) No fish fence shall be erected –
 - (a) within 300 metres of another fish fence;
 - (b) within 500 metres of any Government wharf; or
 - (c) during the closed season specified in Schedule 12.

43. Application to renew a licence to erect and use a fish fence

An application to renew a licence to erect and use a fish fence shall be –

- (a) made in Form 9 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

PART 7 – FISH AGGREGATION DEVICES

44. Fish aggregation devices

No person shall place a fish aggregating device in the fisheries waters except with a licence issued by the Secretary and in accordance with such conditions as he may specify.

45. Application to license a fish aggregation device

An application to license a fish aggregation device shall be –

- (a) made in Form 10 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2

46. Licence for a fish aggregation device

A licence for a fish aggregation device shall be issued –

- (a) in Form 11 of Schedule 1; and
- (b) payment of the fee specified in Schedule 2.

47. Application to renew a licence for a fish aggregation device

An application to renew a licence for a fish aggregation device shall –

- (a) be made in Form 12 of Schedule 1; and
- (b) accompanied by the fee specified in Schedule 2.

48. Designated fish aggregation device

- (1) The Secretary may, by Notice published in a widely circulated newspaper, declare any fish aggregation device placed by the Ministry to be a designated fish aggregation device for the purpose of this regulation.
- (2) No person shall fish within a radius of three nautical miles from a designated fish aggregation device except with the written authorisation of the Secretary.

49. Markings and equipment of a fish aggregation device

Any fish aggregation device which utilises a surface float shall be –

- (a) clearly marked with the name of the owner;
- (b) equipped with a radar reflector; and
- (c) equipped with white lights to be visible at night from a distance of three nautical miles.

50. Use of a fish aggregation device

Unless specifically authorised by the Secretary in writing, no person, other than the person who has placed the fish aggregation device, shall attach a vessel to the fish aggregation device.

51. Compliance with other conservation and management measures

Permission to use a fish aggregation device does not affect any obligation to observe applicable conservation or management measures for fisheries except where the Secretary specifies in writing that a particular measure does not apply to fish caught within three nautical miles of that device.

52. Disposal of unauthorised fish aggregation devices

Any fish aggregation device placed in fisheries waters contrary to this Part shall be disposed of in such manner as the Secretary may decide.

53. Fish aggregation device Log sheet

A holder of a fish aggregation device licence shall –

- (a) complete the FAD Fishing Log sheet, Form 3 of Schedule 13, for every fishing activity at the FAD, including the -
 - (i) Licence Holder's name;
 - (ii) Location of the FAD;
 - (iii) Date of fishing;
 - (iv) Fishing method;
 - (v) Number of fish by species (scientific or common name);
 - (vi) Total weight by species; and
 - (vii) Total fishing hours; and
- (b) forward all completed FAD Fishing Log sheet to the Secretary in their original and unaltered form no later than 24 hours after the completion of the day to which the log sheet relates.

PART 8 – MISCELLANEOUS

54. Information to be true, complete and correct

- (1) Any information required to be recorded, notified, communicated or reported under any of these regulations shall be true, complete and correct.
- (2) Any change in circumstances which has the effect of rendering such information false, incomplete or misleading shall be notified immediately to the Secretary.

55. Resource rent on fishery

- (1) The Minister may, by Notice published in a newspaper widely circulated in the Kingdom, raise a resource rent as he deems necessary on any fishery for the purposes of management and development of that fishery.
- (2) The resource rent referred to in sub-regulation (1) shall be based upon such information as determined by the Minister.

56. Use and expenditure of the marine aquarium fish resource rent

- (1) Seventy five percent of funds raised from the resource rent shall be made available to the Ministry for the purposes of management of that fishery.
- (2) Twenty five percent of funds raised from the resource rents shall be paid to general revenue.

Made at Nuku'alofa this 6th day of June 2008.

Minister of Agriculture and Food, Forests and Fisheries
